**Time:** 8 p.m.

**Day:** Friday

**C. Read Harold's speech and answer the questions. (K.E7.7.R1) (4x5=20)**

Hello, I am Harold. I am 14 years old and I have big dreams for my future. I believe I will have an excellent career. I think I will be a software engineer because I love computers and coding. I don't want to live in a crowded city because I dislike traffic jams. I guess I will live in a peaceful town. In the future, I believe driverless cars will be everywhere, so I will probably use one every day. I also love animals. I hope I will adopt a dog and live a happy life. I imagine my future will be exciting and successful.

1. What is Harold's dream job? .....
2. Will he live in a crowded city? .....
3. Why does he want to be a software engineer? .....
4. What will he probably use every day? .....

**D. Use the information on Sharon's dream card and write 5 sentences about her future dreams. (K.E7.7.W1) (5x6=30)**
